MARK SCHEME

Maximum Mark: 45

---

**Published**

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the May/June 2025 series for most Cambridge IGCSE, Cambridge International A and AS Level components, and some Cambridge O Level components.

---

This document consists of **12** printed pages.

**Generic Marking Principles**

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptions for a question. Each question paper and mark scheme will also comply with these marking principles.

**GENERIC MARKING PRINCIPLE 1:**

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

**GENERIC MARKING PRINCIPLE 2:**

Marks awarded are always **whole marks** (not half marks, or other fractions).

**GENERIC MARKING PRINCIPLE 3:**

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

**GENERIC MARKING PRINCIPLE 4:**

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

**GENERIC MARKING PRINCIPLE 5:**

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

**GENERIC MARKING PRINCIPLE 6:**

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

**Annotations guidance for centres**

Examiners use a system of annotations as a shorthand for communicating their marking decisions to one another. Examiners are trained during the standardisation process on how and when to use annotations. The purpose of annotations is to inform the standardisation and monitoring processes and guide the supervising examiners when they are checking the work of examiners within their team. The meaning of annotations and how they are used is specific to each component and is understood by all examiners who mark the component.

We publish annotations in our mark schemes to help centres understand the annotations they may see on copies of scripts. Note that there may not be a direct correlation between the number of annotations on a script and the mark awarded. Similarly, the use of an annotation may not be an indication of the quality of the response.

The annotations listed below were available to examiners marking this component in this series.

**Annotations**

<b>Annotation</b>	<b>Meaning</b>
	Correct: credit for content point in <b>Question 1</b>
	Incorrect
	'Benefit of the doubt' is given
Highlighter	Highlight: used to highlight connectives, structures and vocabulary
	Omission
	Meaning unclear or illegible
	Used to show that blank pages have been seen and any creditworthy material has been awarded
	Harmless addition: used if the candidate extends their answer, without contradicting or invalidating the response.
	Invalidates: used if the candidate includes material in their answer which contradicts the correct answer, and therefore invalidates their response.
	Irrelevant
	Correct point 1 awarded – Task Completion in <b>Questions 2 and 3</b>
	Correct point 2 awarded – Task Completion in <b>Questions 2 and 3</b>
	Correct point 3 awarded – Task Completion in <b>Questions 2 and 3</b>
	Correct point 4 awarded – Task Completion in <b>Questions 2 and 3</b>
	Correct point 5 awarded – Task Completion in <b>Questions 2 and 3</b>

Annotation	Meaning
	Irrelevant material
tc	'tout court': on its own, the material is not sufficient to score the mark

**Additional Guidance**

- No response and '0' marks:**

(a)	<b>Award NR (no response):</b> If there is nothing written at all in the answer space or If there is only a comment which does not in any way relate to the question being asked (e.g. 'can't do' or 'don't know') or If there is only a mark which isn't an attempt at the question (e.g. a dash, a question mark).
(b)	<b>Award 0:</b> If there is any attempt that earns no credit, e.g. the candidate has copied out part or all of the question.

- Crossing out:**

(a)	If a candidate changes his/her mind about an answer and crosses out an attempt, award a mark if the final attempt is correct.
(b)	If a candidate crosses out an answer <u>to a whole question</u> but makes no second attempt at it, mark the crossed-out work.

- Optional questions:**

Mark all questions attempted by the candidate. Where the candidate attempts more than one of the alternatives in Question 3, the marking system will take the best mark.

- Using mark schemes with grade descriptors:**

Start at the bottom of the mark scheme and work upwards through the descriptors when awarding marks.

The examiner should look at the work and then make a judgement about which level statement is the 'best fit'. In practice, work does not always match one level statement precisely so a judgement may need to be made between two or more level statements.

Once a 'best-fit' level statement has been identified, use the following guidance to decide on a specific mark:

- If the candidate's work convincingly meets the level statement, award the highest mark.
- If the candidate's work adequately meets the level statement, award the most appropriate mark in the middle of the range (where middle marks are available).
- If the candidate's work just meets the level statement, award the lowest mark.

## Detailed Mark Scheme

Question	Answer	Marks
1	<p>Candidates are required to complete 5 gaps in German. Read all of the items that the candidate has listed and award marks as follows:</p> <p><b>Award 1 mark for each correct item.</b></p> <ul style="list-style-type: none"> <li>• In <b>Question 1</b>, award marks for items wherever the candidate has written them provided the candidate has made clear which part of the form they refer to.</li> <li>• Mark for communication. Tolerate inaccuracies, provided that communication is not impeded.</li> <li>• If spelling is inaccurate, start by referring to the table below. Refer to the questions below if no decision on the spelling you have encountered is recorded there.</li> </ul> <p>If you read aloud what the candidate has written, does it sound like the correct answer and would a native speaker of German understand it?</p> <p>Does what the candidate has written look like the correct answer, e.g. one letter missing but no other word created?</p> <p>Would a native speaker of German understand it?</p> <ul style="list-style-type: none"> <li>• Reject misspelt words which suggest a word with a quite different meaning. Where nouns are usually plural, accept the singular and vice versa.</li> <li>• All answers must fulfil the communicative purpose described in the rubric.</li> </ul>	5

Before marking **Question 3**, please check the 3 blank pages and annotate with SEEN.  
**Please ensure marks for 3 (a) or 3 (b) are entered into the correct section.**

**Task completion**

For **Question 3** a response can only be considered complete if all elements of all part-questions are communicated.

Marks	Descriptor
<b>9–10</b>	<ul style="list-style-type: none"> <li>Completes all tasks.</li> <li>Provides detailed information, opinions/reactions and explanations.</li> <li>The writing is focused and wholly relevant.</li> </ul>

<p><b>Consider</b> use of verb forms and tenses, capital/lower-case letters in nouns, gender, case agreement, adjective endings, word order</p>	
<p>Extremely short answers with no errors cannot be awarded a mark of more than 4 for <i>Accuracy</i> as the candidate has only provided <u>some</u> accurate spelling and grammar.</p>	

### Irrelevance

- Sections of material unrelated to any of the bullet points will be disregarded.
- If the whole answer to **Question 3** is irrelevant (e.g. contains no evidence of being related to the bullet points set), award 0 for *Task completion*, *Range* and *Accuracy*.
- If **Question 3** is attempted but communication is not achieved (i.e. the candidate misunderstood the question), award a maximum of 4 for *Range* and a best fit for *Task completion* and *Accuracy*.
